MADE IN ITALY

Stander Bags SRL guarantees the authenticity of all Stander products purchased on the site.

Our bags are made with Italian materials, processed and produced by Italian craftsmen, and are all Made in Italy as well as Made in Veneto, since the provinces involved in the production of Stander products are in the Veneto region (Venice and Padua).

MATERIALS

Our bags are made of high-quality materials: laminated calfskin or goatskin on the outer and nappa leather on the inner part.

The label sewn on the inside or outside is also made of calfskin. The accessories, including the 'My Bag' document holder, are all made of satin or polished AISI 304 stainless steel. On some models, the label can be made of stainless steel.

ACCESSORIES

The accessories featured in the products, with the exception of the hinge, are designed by Stander Bags SRL and made of steel for the benefit of product quality and originality. All accessories are branded with the Stander logo and a code is laser-printed on part of them indicating the month and year of production, as part of the product ID and the model.

OUR HISTORY

Our story begins in Venice: the name of our brand comes precisely from a Venetian saying, 'Borsa dea Stànder', where 'Stànder' stood for Standa, the first supermarket in Venice to sell simple plastic bags. Alberto Freo, the artist-designer creator of our bags, graduated from the Academy of Fine Arts and later specialized in haute couture: since then, his visionary and nonconformist spirit finds its best expression in the creation of handcrafted bags which, daughters of the handle design, are born around it and become precious objects of art.

OUR GOALS

To express your personality, character, and ambitions through a bag which looks like you; to make you wear an accessory that is as unique, sought-after, and valuable as a work of art; and to make you feel above fashion without sporting flashy logos- these are our goals.

LUXURY IS THE VALUE OF ARTISTIC CREATION

Riding fashion trends is not something we're interested in, nor do we care about pleasing everyone: Stander's handcrafted luxury handbags are a magnet for those who can see and grasp the artistic genius, craftsmanship, and the vocation to last that all our collections bear witness to. It's not about the logo: luxury is the value of artistic creation.

A WORK OF ART IN YOUR IMAGE AND LIKENESS

Since antiquity, the most renowned courts and the most prestigious nobility have commissioned their best artists to create works of art which reflect the identity, style and aspirations of their patrons, thus earning them prestige. Stander Bags cares about art and value, and provides its craftsmanship to create a work of art in your image and likeness: you can ask us to personalize your bag to wear a truly exclusive accessory.

BEYOND LUXURY OUR COMMITMENT TO SUSTAINABILITY

We are committed to using high quality materials which come from sustainable sources. A significant amount of the leather is sourced from the high-end Italian fashion industry and tanneries, ensuring the highest quality and significantly reducing the waste of valuable materials. This approach allows us to maintain premium quality without compromising on sustainability.

Furthermore, all the leather we use is sourced from tanneries certified by the Leather Working Group (LWG), a non-profit membership organisation which addresses the environmental impact of leather production by ensuring that all certified tanneries implement strict energy and waste water management programmes.

Each step of our process meets the highest standards of ethical production, social responsibility and environmental impact. We are committed to reducing waste by using a significant amount of deadstock, high quality surplus leathers. The whole production process is sustainable, workforce is entirely local and every element of the bag is made by artisan workshops in the Venetian territory.

ETHICAL AND LOCAL PRODUCTION

Our commitment extends beyond the final product. We closely collaborate with local artisans in the Venetian region, carefully selected to share our values, of supporting the local workforce and promoting ethical and responsible production.

TRACEABILITY AND SOCIAL RESPONSIBILITY

We pride ourselves on our transparent supply chain. Every element of our bags is traceable, guaranteeing the sustainable sourcing of materials and adherence to ethical standards. Choose Stander Bags for timeless elegance, environmental awareness and a touch of artistic genius. Explore the collection and dive into the unique world of sustainable luxury bags.

P-BAGS

The background image is a hand-drawn sketch in pencil or light ink. It depicts a bag handle and the upper part of a bag body. The handle is a thick, vertical bar. The bag body is a rounded shape. There are several handwritten notes and arrows. One note says 'Handled stitching' with an arrow pointing to the handle. Another note says 'Handled stitching' with an arrow pointing to the bag body. A third note says 'Punctured stitching close it hurt?' with an arrow pointing to a small circle on the bag body. A fourth note says 'Wave' with an arrow pointing to a wavy line on the bag body. The sketch is done on a light-colored background.

Alberto's first inspiration for artistic craftsmanship are the handcrafted luxury P bags. Their creation begins with the conceiving of the handle (P = 'Prototype') - a true work of art in steel - and comes only as a result, to the bag, which accompanies and defines the bag's intuition. The result is a line that is elegant in shape and bold in colour, with a striking, almost sculptural plasticity of forms. The P line is the flagship of the Stander Bags collections, from Alberto's first love for the classicism of the P1 to the increasingly eccentric and amusing style of the P4, from the minimalist yet playful design of the P13 to the absolutely iconic P7.

D - BAGS

Travel has always been a powerful source of inspiration for artists: which is how, from a trip to the German land, the collection of handcrafted luxury bags D (D = Deutsche) originates. Its creation comes in response to the need to develop a line with a sober yet decisive profile: Alberto grasps 'opportunity makes the thief' and grabs from the German spirit the minimal and elegant classicism as the raw material from which to begin in order to express and enhance the essence of the wearer. From the firm recognisability of the D01, to the dynamic refinement of the D05, the D line is the embodied soul of the Stander Bags brand.
